LRP Hyper Pack 5000 - 7.2V - 6-cell - US-style plug NiMH Stickpack

Highest quality and maximum power – also with US- style plug!

Art. no.: 71145U

The LRP stickpacks represent the next generation of powerful NiMH stickpacks. These multi- purpose packs for all R/ C applications feature higher capacity, outstanding power delivery, lower internal resistance and a completely new and stylish design. They have the capacity reserves you need in the decisive moments or in long races.

The "Blue is Better" packs are also available with US- style plug. Therefore, they are ideally suited to be combined with the LRP Spin Super & Spin Pro Brushless Speed Controls and with all R/ C cars featuring an US- style connector system.

All battery packs are supplied pre- assembled and ready- to- use including connectors. Only single- cell shrink wrapped cells by LRP are used in each LRP stickpack.

Only high- quality LRP cells are used in LRP stickpacks – just BLUE IS BETTER!

This item must not be sold or distributed to the US.
